

**ABOUT VEAL**  
Indiana University Student Crowds Much Experience Into a Busy Month, Including Elopement and Disappearances.

CHICAGO, Nov. 29.—Into five weeks of the seventeen years of his life Henry H. Henley, son of Attorney J. E. Henly, 5037 Grand boulevard, has, it is said, crowded a disappearance from the University of Indiana, a visit to Indianapolis, elopement with a young woman of that city to Chicago, marriage, and a second disappearance—this time presumably to New York.

For all these statements the father of the young man is authority, with the explanation that his son frequently has intervals when impulse drives him to embarrassing acts.

The peculiar caprices of young Henley became public when the father sought the aid of the police in locating the missing boy. The present disappearance brought to a sudden end a honeymoon of several days spent with his bride at the Palmer house. The wife, according to her husband's father, has returned to her home in Indianapolis, heart-sick and in tears.

Henley had an apparently uncontrollable desire to buy things. Among the purchases delivered at the door of his rooms in the university town were boilers and mechanical appliances of various kinds. Sometimes the bill amounted to as much as \$500, but his father settled the accounts.

Henley is said to be a precocious youth. He was graduated from a Chicago high school at the age of fourteen. In school he showed a remarkable aptness in the study of electrical engineering and mechanics. When he was sent to the university the liking for this study took an intensely practical turn. That is the reason he wanted a working laboratory of his own and bought it at the expense of his father.

"Henry has great inventive genius," said Attorney Henley. "He is a phenomenon in some ways, and if ever he gets over the trouble that seems to afflict him and acts normally I believe he will be a great inventor."

Young Henley was found in the city yesterday and is insane. His wife is the daughter of a prominent Indianapolis man.

**Colombia May Be Offended.**  
WASHINGTON, Nov. 29.—The reported action of Captain Perry, the naval officer in command of the of the United States forces on the isthmus, in declining to permit any of the Colombian or rebel troops to make use of the railway, may raise an interesting question. It is understood here that the Colombian government feels that it has the decided right to use this railway to forward government troops. This right is based on the fact that the road is on land over which Colombia has sovereignty, and is operated under a government concession, Colombia retaining an interest in the road to the extent of \$250,000 per year. Moreover, the Colombian authorities say the rebels have not had their belligerent rights recognized by this or any other government, so that they have no status as carrying on warfare.

**Stamp Tax Receipts.**  
WASHINGTON, Nov. 29.—A statement has been prepared in the internal revenue bureau which shows the total receipts from the war revenue act only from June 13, 1898, to June 30, 1901, also the four months of the act of March 2, 1901, from July 1 to Oct. 31, 1901. The total receipts from these acts alone amounted to \$343,638,534, as follows, cents omitted: Documentary stamps, \$115,352,390; proprietary stamps, \$13,279,855; beer, \$111,709,058; special taxes, \$18,829,559; tobacco, \$52,087,273; snuff, \$2,971,197; cigars, \$9,480,545; excise tax, \$3,053,272; legacies, \$11,162,802; cigarettes, \$3,097,014; mixed flour, \$23,154; additional taxes on tobacco and beer, \$991,208.

**TWIG FLEW**  
But in His Flight He Left Good Advice for His Friends.

Runaway Banker Leaves Unique Message About Matters and Things in General but Fails to Rob Anybody and Guards Creditors and Family.

MUSKEGON, Mich., Nov. 30.—Henry A. Terwilliger, sole owner of the only bank in Montague, Mich., has disappeared from the city, where for twenty years he was a leading business man, and he left behind no explanation of his action except the following extraordinary letter, which he asked published:

"Henry H. Terwilliger, of humble birth and lowly spirit, unhappily finds himself bearing responsibilities which wear him and rob him of time which he feels he ought to have the liberty to spend in more congenial employment.

"Nobody will be able to understand his difficulties or appreciate conditions which drive him to adopt a course of action which may be considered cowardly, if not dishonorable. Neither can any one know what pain it gives him or how keenly he realizes what sacrifice he is making, or how deeply he regrets the trouble he is making his friends and patrons.

"But he has shaped matters so as fully to protect every interest and is absolutely confident that nothing worse than temporary inconvenience will result to any customer of the bank, as he leaves \$15,000 in excess of all liabilities. He does not carry away a dollar of anybody's money. Therefore, let no man say 'Twig' is a defaulter, a bank wrecker, or a thief. He has the utmost abhorrence of such a reputation, a fate which impends over every private banker doing business alone, however honest or smart he may be.

"No man ought to have the care of the money of a community. Such a care will stagger any man sooner or later, kill him or wreck him, work him to death, or enslave him if he succeeds, and blast his life if he fails. Banks ought to be incorporated. "The business men of Montague, through ignorance, cowardice, folly, and jealousy, turned down a project to incorporate the Montague bank. Let them now awake to the importance of action in this direction.

"Terwilliger hopes that by assigning and placing himself out of touch that arrangements can and will be made to continue the business with little interruption. As there is no reason for any anxiety whatsoever about the funds, let all depositors view the matter sensibly and philosophically and allow the worried banker to go in peace and take a vacation, the first in twenty years.

"The gossips will go into hysterics, of course, and there will be plenty of abuse and ridicule, for the milk of human kindness is not equal to all, out there are those whom memory and conscience will compel to speak charitably of the absent banker, and there are others who will defend him loyally out of pure friendship and sympathy. He goes bearing malice toward none, sincerely regretting his weaknesses and errors and repenting his offenses, and remembering gratefully the kindness extended to him and his family during twenty years of life in Montague.

"H. H. TERWILLIGER.  
"DETROIT, Nov. 23, 1901."  
The Montague Bank, of which Mr. Terwilliger is the sole owner, is apparently solvent. In fact, the assets exceed the liabilities by \$15,000. In view of this his friends are unable to explain the enigma of his flight from home.

**Terrible Teddy Knocked Out.**  
HARTFORD, Conn., Nov. 29.—In two whirlwind rounds yesterday Teddy McGovern, featherweight champion of the world, was beaten down and out by Wm. H. Rothwell, of Denver, known as "Young Corbett." It was done by a terrific right-hand uppercut delivered on the point of the jaw in a fair fight. McGovern was never defeated before and he is feeling very badly over the result.

**CARS LACKING**  
Labor Troubles Also Interfere With Record-Breaking Trade But Business Is Better than Ever in Spite of Adverse Influences.

NEW YORK, Nov. 30.—Dun's Weekly Review of Trade today says:

When consumptive demand equals or exceeds supply and prices are firmly held at an exceptionally high level, it is generally considered that there is little to be desired in the business situation. These factors are now in evidence to an unusual extent, yet many industries are halting. The principal disturbing element is the lack of cars to handle the phenomenal shipments that are urgently needed. To this must be added the delay caused by extensive changes under way at many rail terminals, where better facilities are being prepared, but in the meantime regular work is handicapped.

In the same connection there have appeared numerous labor controversies among switchmen, freight handlers, river pilots, miners, and other allied workmen, which combine to make the problem of transportation most intricate.

Another new high record for the season was established by corn, not alone because of speculative operations, although these were most aggressive at the west. Even at the recent level of prices, which surpassed all high points in about ten years, it has proved futile to undertake commitments on the short side of the market. Domestic requirements alone provide the element of strength, for outside buying is only 25 per cent of the business in previous years. Atlantic exports for the week were 528,172 bushels, against 3,570,696 last year. Receipts come forward slowly, despite the attractive prices for the week, amounting to only 2,208,278 bushels, against 3,486,370 last year. Wheat also held firmly, closing the week more than 4 cents a bushel above the price a year ago, which is most satisfactory in view of the vast increase in yield. Receipts at the interior are liberal—5,280,443 bushels, against 3,902,798 last year, but the gain in foreign buying is still the feature, exports from all ports of the United States in five days aggregating 3,975,819 bushels, compared with 3,839,070 a year ago.

**He Was an Organist.**  
MINNEAPOLIS, Minn., Nov. 30. Samuel Hogan was sentenced to three years in the state penitentiary for shooting Peter Kolik, soon after the McKinley assassination. Kolik is a Pole, and on being asked if he were an anarchist replied that he was. It afterward developed that he did not understand English well, and supposed he was asked if he were an organist.

**TOLD IN PLYMOUTH**

It is the Evidence of Plymouth People Published in Plymouth Papers that has Made Such a Reputation for Dr. A. W. Chase's Nerve Pills.

Standing clear and distinct, marking the difference, the superior merit, the adaptability to present day ailments is the volume of local testimony for Dr. A. W. Chase's Nerve Pills. Its so different to the ordinary remedies referring to cures made at distant points which it is hard to verify. There is a reason for Dr. A. W. Chase's Nerve Pills commanding home evidence wherever they are known. It is their wonderful influence in bringing up the standard of Nerve Force.

Mrs. W. Pitts of West Laporte St., Plymouth, Ind., says:—"Dr. A. W. Chase's Nerve Pills are splendid not alone for adults but children. I used them in both instances to build up the strength—to steady the nerves—to give restful sleep and to improve the appetite and digestion and they acted finely both times bringing the patient back to health and strength again. To the little one I gave a pill at a dose. I am glad Mr. J. W. Hess, Druggist called my attention to the medicine."

Dr. A. W. Chase's Nerve Pills are sold at 50c a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of W. Chase, M. D. are on every package.

**BRAVES WIN BRIDES**  
Tests of Endurance After Big Feast by Osage Indians.

WICHITA, Kas., Nov. 30.—The Osage Indians, the richest tribe in the world, held their annual Thanksgiving feast and the climax came when the young men tried to win brides by tests of endurance. The day opened with a big dance, hundreds of Indians coming from their tipis at daybreak and dancing around in a circle for several hours, chanting weird hymns and offering up prayers to the Great Spirit. The dance ended with a final rushing and whirling around in a circle, led by the head men of the medicine clan.

A feast followed, at the conclusion of which came the tests of endurance. A number of braves who wished to become married were placed in a row, along the circle. The old medicine chiefs stood in the center of the ring as judges. The tests consisted of throwing iron weights through thick boards, long-distance jumping, shooting, etc. The winners in each of these contests was allowed to choose brides.

**Smut Does Not Kill Cattle.**

NOBLESVILLE, Ind., Dec. 2.—Many cattle are dying in this county from the effects of eating cornstalks in the field. The theory was first advanced that the smut on the stalks produced death. Dr. J. W. Klotz, assistant state veterinarian, who resides in this city, has proven this theory to be wrong. He recently completed an experiment by feeding a cow a bushel of smut each day for several weeks, and the bovine gave more milk than usual at the expiration of the time. She was also in good health. He is unable to explain the exact cause of the trouble, but advises all farmers to refrain from turning their cattle into corn fields.

**Indian Rebels Yield.**

COLON, Nov. 29.—The liberal forces between Colon and Bohio have agreed to surrender with their arms, their life and liberty being guaranteed by the government.

This result was reached at a conference attended by Captain Perry of the American battleship Iowa, General Alban, leader of the government troops, the liberal chiefs, and the captains of the American, English and French warships.

**Death of a High Mason.**  
INDIANAPOLIS, Dec. 2.—Joseph B. Smith, the highest Mason in Indiana, secretary of the Scottish Rite and of the Mystic Shrine, is dead at his home in this city. He was the first of the three active 33rd degree Masons in the state and his death leaves Wm. Geake, of Ft. Wayne, occupying that position, John Caven, of this city, being the next in line. Mr. Smith has been sick nearly a year and his death was not unexpected.

**BACKACHE**

Is only one of many distressing symptoms which point to the presence of womanly diseases. If women thoroughly understood the relation of the local womanly health to the general health, they would understand that backache, headache, nervousness, seasickness, dizziness, faintness and similar feminine ailments, cannot be cured until the womanly health is established.

Dr. Pierce's Favorite Prescription cures diseases peculiar to women. It establishes regularity, dries the drains which weaken women, heals inflammation and ulceration, and cures female weakness. In curing these local diseases, it cures the ailments which establish a general backache, headache, seasickness, dizziness, faintness, nervousness, and other ills peculiarly feminine.

"I wrote you for advice February 4th, 1896," writes Mrs. Loma Halstead, of Claremont, Cherokee Nat. Ind. Ter. "I was racked with pain from the back of my head down to my heels. Had hemorrhoids for weeks at a time, and was unable to sit up for ten minutes at a time. You answered my letter, advised me to use your valuable medicine, via Dr. Pierce's Favorite Prescription, 'Golf in Medical Discovery,' and 'Pleasant Tablets,' also gave advice about injections, baths and diet. To my surprise, in four months from the time I began your treatment I was a well woman and have not had the backache since, and now I put in sixteen hours a day at hard work."

Weak and sick women are invited to consult Dr. Pierce by letter free. Address Dr. R. V. Pierce, Buffalo, N. Y. The Common Sense Medical Adviser, 1008 pages, is given away. Send 21 cent stamps, the expense of mailing only, for the book in paper covers, or 31 stamps for the volume bound in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

**MAYDOLE'S HAMMER.**  
(Benson's Plaster is Pain's Master.)  
When Maydole was told that he made "a pretty good hammer," he said, "No, I don't make a 'pretty good hammer,' I make the best hammer that ever was made."

Every carpenter who saw a Maydole hammer wanted one. It was of the best material, perfectly balanced, and the head never flew off. Hammers were divided into two classes—1st, Maydole's; 2d, all the rest. Plasters are separated by the same line of cleavage, 1st, Benson's Plaster; 2d, all the rest. When, for rheumatic pain, a cold, a cough, kidney trouble or any other disease or ailment that may be treated externally, you ask for a plaster, any honest, reputable druggist will give you a Benson's. He knows it is incomparably the best, and he assumes that you know it too. As the name of Benson stands for hammers—the "real thing." All the medicinal plasters that are valuable in a plaster are in Benson's. Capsicum, Strengthening and Belladonna plasters are out of date.

An army of physicians and druggists, and millions of the people, have written of Benson's Plaster as a remedy to be trusted. Benson's Plaster has fifty-five highest awards. Accept no substitute. For sale by all druggists, or we will prepay postage on any number ordered in the United States, on receipt of 25c. each. Seabury & Johnson, Mfg. Chemists, N. Y.

**Baby Roasted in Oven.**  
SIOUX CITY, Ia., Dec. 2.—Mrs. J. Fred Meyers, living five miles from Correctionville, wrapped her five months-old baby, Cora Meyers, in a blanket, put her in the oven of the kitchen stove to keep warm and went into the yard to gather fuel. When half an hour later she came back the fire in the stove had blazed up and the room was filled with smoke. Rushing to the oven, she found the flames leaping from the blanket and clothes and body of her infant. Life was already extinct and the limbs were burned to a crisp.
